# Introduction

The Intrepid Pioneers Ecosystem (IP) is a decentralized blockchain upstream platform based on the Binance Ecosystem. It is built by the Singapore SMC Foundation and aims to solve the trust and security issues of asset management with blockchain technology. , Through point-to-point information transmission, a game distributed database of co-construction and sharing is formed. By integrating DEFI, games, and NFT, a safe, reliable, interesting, and low-threshold one-stop game ecosystem is built.

# Detailed introduction

The Intrepid Pioneers Ecosystem (IP) is an ERC20 token built on BSCSCAN for the purpose of serving as a basic token in the Intrepid Pioneers Ecosystem. IP has the latest technology and the most lofty ideals. We are committed to building a BNB-based gaming platform, and our IP tokens will also become rewards for game mining!

Through point-to-point information transmission, a co-constructed and shared game distributed database is formed. By integrating DEFI, games, and NFT, a one-stop game ecosystem that is safe, reliable, interesting, and low-threshold is built. We look forward to the laughter of every gamer!

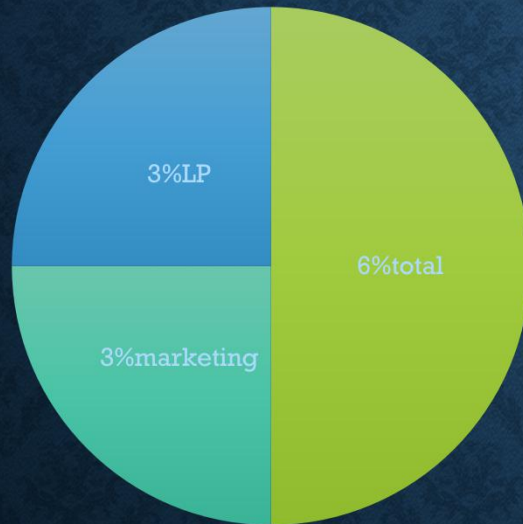

# Team Vision

We hope to shake up the status of paid games centered on steam with a pioneering blockchain model. It can even attract some steam gamers to enter our platform to play games. Our public token IP will support all the ecology of this game platform. Looking forward to the pattern of the game can be changed for us.

# Mining introduction

The mining system requires your tokens to be pledged and cannot be redeemed within three days after the pledge, with a daily output of 3% of the total mining volume. For example, if you mine 10,000 coins, you can receive 300 coins per day, which means that the daily interest rate is 3%. The pledged tokens cannot be redeemed within three days after the start of mining, but the tokens can be redeemed after three days!

*THANK YOU!!*
